Education

Lanzhou Jiaotong University

Sep. 2022 - Jun. 2025

Master of Environmental Engineering

Lanzhou, China

- **Relevant Coursework:** Environmental Risk Analysis and Safety Assessment (91%), Environmental Bioengineering (91%), Colloid and Interface Chemistry (89%), Environmental Fluid Mechanics

Shaanxi University of Science and Technology

Sep. 2018 - Jun. 2022

Bachelor of Environmental Engineering

Xi'an, China

- **Relevant Coursework:** Water Pollution Control Engineering, Fluid Mechanics, Environmental Engineering Design, Pollution Control in Light Chemical Industry, Water Supply and Drainage Networks

Projects

Study on the Effectiveness of Active Components in Alumina-Based Ozone Catalysts for Wastewater Treatment

Sep. 2023 - Jun. 2025

Master Dissertation

- Examined the influence of catalyst composition on adsorption and catalytic ozonation performance.
- Applied entropy weight-TOPSIS to select the optimal catalyst under varying water quality conditions.

Effect of Different Iron-Based Materials on Anaerobic Digestion Performance

Mar. 2021-Jun. 2022

Bachelor Dissertation

- Investigated the impact of various iron-based materials (ZVI, Fe_3O_4 , $\text{Fe}(\text{OH})_3$, and Fenton sludge) on anaerobic digestion efficiency.
- Analyzed COD removal rates and methane production, demonstrating that Fenton sludge exhibited the highest enhancement in anaerobic digestion performance.

Publications

Sun, H., Wu, C., Fu, L., Luo, G., Hou, S., Xi, H., Xu, Y., Hu, Y., & Ma, J. (2025). Comparative study on adsorption performance of $\text{Cu-Mn-Ce}@ \gamma\text{-Al}_2\text{O}_3$ for petrochemical wastewater based on entropy weight method and ANOVA analysis. *China Water & Wastewater*.

Fu, L., Wu, C., Sun, H., Yu, Y., Xi, H., Song, Y., & Wang, H. (2024). A novel catalyst screening method (Invention Patent).

Hou, S., Fu, L., Luo, G., Tian, J., Zhang, X., Sun, H., Wang, J., & Wu, C. (2024). Progress and hotspot analysis of ozone catalytic oxidation applications based on bibliometrics. *Industrial Water Treatment*.

Awards

Scholarship, Lanzhou Jiaotong University

2023

Scholarship, Shaanxi University of Science & Technology

2021

Internships

Research Assistant (Chinese Research Academy of Environmental Sciences)

Sep. 2023 - Jun. 2025

Skills

Software: Python, $\text{\LaTeX}$, Microsoft Office, Origin

Instruments: UV-Vis Spectrophotometer, TOC Analyzer, F-7000FL Fluorescence Spectrophotometer, FT-IR.

Languages: Chinese (Native), English (Fluent)
